Stuhlhockerbank

While the old and traditional served as the basis for the new and the innovative, these highly inviting and joyful conversational structures blend the intimate with the public, the historical with contemporary art and design, and the ordered with the random.

Chapter House Bench

Yes!!! They are absolutely wonderful. I imagined quality - but not quite this impact of such beauty and empathy with the site... Note that the artists, and their dedication to enhancing museum interaction, extend the invitation to sit, enjoy, and contemplate the resonance of the new and the old. Artists are speaking to each other across almost 800 years. Congratulations." Virginia Raguin, College of the Holy Cross Worcester, MA.

OutSeater

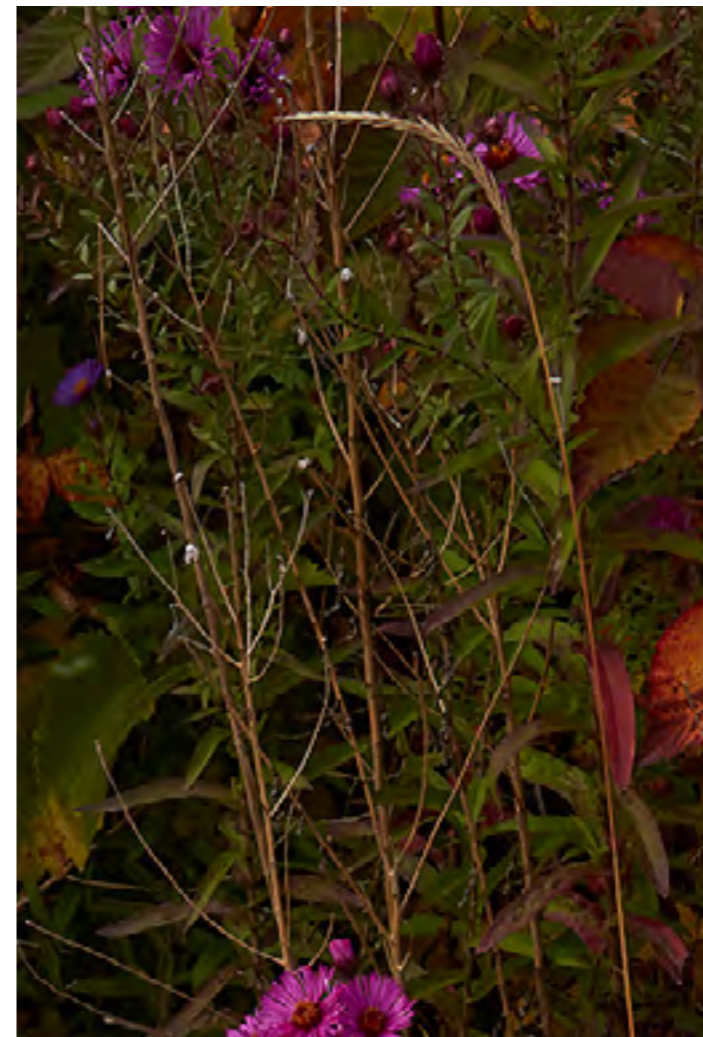

Based on the concept of Stuhlhockerbank (chairstoolbench) OutSeater is a series of seating for public spaces which approach users and viewers in an extraordinary way.

Over and above the pure purposiveness of a piece of furniture, the objects come with narrative elements. They seem familiar and yet at the same time surprising, enhanced by a sensual and poetic dimension.
